

BLACKSHARK PROTECTION SERVICES AND GRG BANKING IN STRATEGIC PARTNERSHIP

Blackshark Protection Services is proud to announce its official partnership with GRG Banking, one of the world's top three providers of ATM and cash management solutions, trusted by major banks and financial institutions across 110+ countries. With over 330,000 machines installed globally, GRG Banking is a recognized leader in financial self-service, delivering cutting-edge solutions that shape the future of banking.

From New York to Nairobi, Beijing to Berlin, GRG Banking has been at the forefront of financial innovation for decades. Now, through its partnership with Blackshark Protection Services, this world-class technology is anchored in Zimbabwe locally supplied, locally supported, and tailored to the unique needs of our financial landscape.

What This Partnership Means for You

- Trusted by the World's Largest Banks – now available locally.
- Local Technical Support & Maintenance – immediate response, reduced downtime.
- Cost-Effective Access – no more costly imports or overseas servicing.
- Future-Ready Solutions – from ATMs to biometric kiosks, built for tomorrow.

Why It Matters?

This is more than a supply agreement. It's a bold step to transform Zimbabwe's financial sector, empowering banks, retailers, and businesses with secure, efficient, and scalable technology.

GRG Banking – Advanced Solutions Portfolio

1. Full-Function ATMs – Seamless, 24/7 self-service banking with deposits, withdrawals, transfers, and more.
2. Cash Recyclers & Dispensers – Streamlined cash handling with smart recycling to cut costs and improve efficiency.

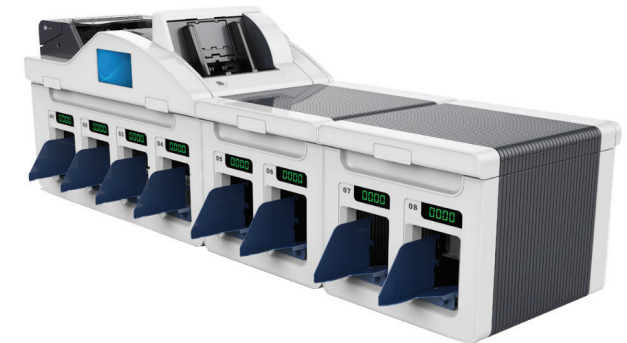

3. Cash Deposit Machines – Fast, secure, and hassle-free bulk cash deposits for banks and corporates.

4. Compact Deposit Machines – Designed for SMEs, tuck shops, and informal traders who need secure, affordable cash solutions

5. Cash Sorters – High-speed sorting with precision, separating denominations and detecting quality or counterfeit notes.

CM800 Cash Sorting Machine

6. Money Counters – Reliable, accurate, and user-friendly currency counting for banks and retailers.
7. Retail Cash Management Solutions – End-to-end systems that optimize cash flow from tills to treasury.
8. Smart Self-Service Kiosks – Multifunctional terminals that enhance customer engagement and service delivery.
9. Biometric Authentication Devices – Next-generation identity verification for secure, fraud-free transactions.
10. Video Teller Machines – Deliver real-time, face-to-face teller services through advanced video technology.
11. Modular Hardware Upgrades – Extend the life of existing equipment with flexible, plug-and-play enhancements.

GRG's FEEL Software Suite

- FEEL Switch – Advanced transaction switching for ATMs & payments.
- FEEL View – Real-time, multi-vendor fleet monitoring at your fingertips.
- FEEL SECOne – Enterprise-level security that safeguards devices and transactions.
- FEEL IQueue – Intelligent queue management for faster, more efficient customer service.
